

7th Asian Thermal Spray Conference

23th-25th September 2015 Xi'an, China

Invitation

The Asian Thermal Spray Conference (ATSC) has emerged as a flagship event in the Asia-Pacific region. The major objective is to provide an attractive forum for all stakeholders (researchers from industry, R&D institutions and academia; practitioners from thermal spray service providers; equipment and feedstock manufacturers as well as OEMs and users). The event is also expected to provide an ideal platform for young researchers and engineers to familiarize themselves with recent advances in this rapidly evolving process, yet industrially well-entrenched technology as well as for various companies to exhibit relevant products to a dedicated audience. The past editions of the event organized in Japan, Korea, Singapore and India were extremely successful in realizing the above objectives. The 7th edition of ATSC will be held in China for the second time in the city of Xi'an from 23th to 25th in September 2015.

Conference Venue

Nanyang Hotel of Xi'an Jiaotong University

Nan Yang Hotel is located in the south of Xi'an Jiaotong University, which occupies the area of about 20,000m². This international hotel enjoys favorable advantages by its unique position, convenient transportation and its garden-like design. It has a large parking lot holding 160 cars and it is surrounded by lawns, plants and fountains. All these make the hotel a quiet and peaceful garden inside the city thus the ideal place for guests, tourists, business people and business activities.

Jiaoda Nan Yang Hotel will make your stay most enjoyable.
